1. Introduction

Magna Academy aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind.

The purpose of the plan is to:

- Increase the extent to which disabled students can participate in the curriculum
- Improve the physical environment of the academy to enable disabled students to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled students

2. Definition of disability

Equality Act 2010: a person has a disability if:

- they have a physical or mental impairment;
- the impairment has a substantial and long-term adverse effect on their ability to perform normal day-to-day activities.

For the purposes of the Act, these words have the following meanings:

- 'substantial' means more than minor or trivial;
- 'long-term' means that the effect of the impairment has lasted or is likely to last for at least twelve months (there are special rules covering recurring or fluctuating conditions);
- 'normal day-to-day activities' include everyday things like eating, washing, walking and going shopping.

The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer

3. Reasonable adjustments

We have a duty to make reasonable adjustments for disabled students:

- When something we do places a disabled student at a substantial disadvantage to other students we must take reasonable steps to avoid that disadvantage
- We will be expected to provide an additional adult or service for a disabled student when it would be reasonable to do so, and where such an intervention would alleviate any substantial disadvantage the student faces in comparison to his/her non-disabled peers

4. Aims of the accessibility plan

We are committed to providing a fully accessible environment which values and includes all students, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion. The accessibility plan will contain relevant actions to

- Increase access to the **curriculum** for students with a disability, expanding the curriculum as necessary to ensure that students with a disability are as, equally, prepared for life as are the able-bodied students; This covers teaching and learning and the wider curriculum of the Academy such as participation in enrichment clubs, leisure and cultural activities or

educational visits. It also covers the provision of additional adults and equipment, which may assist these students in accessing the curriculum.

- Improve access to the **physical environment** of the Academy, maintaining existing equipment and adding specialist facilities as necessary.
- Improve the delivery of **written information** to students, staff, parents and visitors with disabilities. Examples might include handouts, timetables, textbooks and information about the Academy and its events. The information should be made available in various preferred formats within a reasonable time frame.

The Accessibility plan will be made available online on the academy website, and paper copies are available upon request.

Our academy is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

Our academy's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility, this procedure sets out the process for raising these concerns
