

YEAR 10

**SUMMER FUTURES PROGRAMME
2024**

Magna Academy
Poole
an Aspirations Academy

INTRODUCTION

In the final weeks of Year 10, students will take part in a number of careers activities that will provide support in making decisions about Post-16 pathways.

We believe it is important to provide comprehensive information at the end of Year 10 ready for decisions to be made in Year 11. Year 11 students need to decide whether to pursue further education in the form of A levels or vocational qualifications; apprenticeships, BTECs or T-Levels. This decision often depends on their academic interests, career aspirations, and preferred learning style. Students should consider subjects that align with their career goals, complement their strengths, and meet the entry requirements for their desired university courses or career paths.

Year 11 students may need to decide whether to attend a college or sixth form for their Post-16 education. Factors such as course offerings, teaching styles, extracurricular activities, and location may influence this decision. Year 11 students often begin exploring potential career paths more seriously. They may research different industries, professions, and job roles to gain a better understanding of the skills, qualifications, and experiences required for their desired careers.

All students have access to Career Pilot to support their careers education. Career Pilot also has excellent information for parents/carers that can be accessed free [here](#). Additionally all students will have a meeting with an independent careers adviser either at the end of Year 10 or in the first two terms of Year 11. These will be arranged during the academy day and all parents/carers get a copy of their child's careers action plan.

SUMMER PROGRAMME CONTINUED

Please click on the links for more information

July 1st	Tutors- Preparing for interview
July 9th	Post- 16 Careers Fair Local Post- 16 course providers will visit Magna Academy for students to ask questions about the courses available.
July 11th	Mock Interview morning All year 10 students will be supported in this process and in the preparation for their mock interview. Mock interviews play a crucial role in preparing individuals for real-world job interviews by providing a simulated experience that closely mirrors the actual process. Mock interviews enable all our students to become familiar with the interview format, questions, and etiquette, thereby reducing anxiety and boosting confidence. Additionally, mock interviewers provide valuable feedback on areas for improvement, such as communication skills and body language. Overall, mock interviews serve as an essential tool for career readiness, empowering individuals to navigate the job market with confidence and competence.
